

Low Poly Medieval World

First of all hello and thank you to buy our work.

**!!!!Don't worry You don't need to coding at all.
Just drag and drop prefabs to your scene!!!!**

This package contains more than 400 ready for use prefab to create your epic medieval/Fantasy world.

Almost all prefab use colliders(Buildings, machines, props etc..) Of course things like grass, flowers are not.

And of course not sure all colliders good to your project, but we tried to build it logically.

There is 2 demo scene in the project. Day/Night What you can use your project immediately.

+ 2 bonus particle fire and firefly.

+ You can use bloom post effect on your camera. Just drag and drop Bloom.cs file to your camera.

You can found Bloom.cs file at Scenes/Camera Post effects/kino/Bloom...

If you have any question,
or just want to tell something,
dont hasitate to contact us at any time:
